The Populists of Kentucky have done the wise thing. They have grasped the situation and proven equal to their opportunities.

The Democratic and Republican held their State conventions. They both declared in their platforms for the single gold standard. They got together and defiantly threw down the gauntlet in the teeth of humanity. The People's Party has picked it up and a battle royal will be fought by this young giant of patriotism and American manhood against the unhallowed gold combine of the two old parties.

In the language of the late Col L. L. Polk, the People's Party has "stripped for the fray." It will not that while he was not owned by it, allow the deserters to the gold trust corporate power controlled the deto dodge the issue. The battle will cision of the court of which he was rage and be fought to the finish on the financial question.

The people would have righted sue had not been confused or sidetracked by other questions. Now every voter in Kentucky has his eyes open and next November will vote either for the gold standard because ca to demand and enforce such rehe wants it or against it because he forms as will protect individual knows that it is the deadliest enemy rights and liberty and perpetuate to prosperity and human liberty. No the republic. true Kentuckian will vote for the gold standard; every true Kentuckian will vote and work against the gold standard and for the ticket and platform put up by the People's Party of that State. The fight is between Kentucky and the money Devtories. May Hon. Tom Pettit prove the first battle in the great struggle every patriot in the nation is turned to Kentucky. Let every patriot to the extent of his ability help the 'Sons of Liberty' there.
